

Petersen Yacht - Brigantine 70ft – traditional style

NZD 560,000.00

Code: AIR-BH

A beautifully built and maintained vessel, a brigantine with two square sails on the foremast. Built-in steel in 1990 by the acclaimed German yard of Lübbe Voss to the highest international and German shipbuilding standards. Designed by Hans P Petersen in traditional style and using modern methods – apart from her masts and spars – she has been maintained impeccably by a master mariner to undertake long offshore cruises in comfort and in style.

Exceptionally well built and maintained with no expense spared in her recent refits. Having had so many items improved or added, she is “better than new”.

Has been in MOSS survey for up to 6 passengers overnight or 10 by day, she has a huge inventory and every system needed for safe and comfortable cruising.

A reluctant sale, with an associated charter business, available separately if required.
